

# HTML Learning Resources

## Adding Tables:

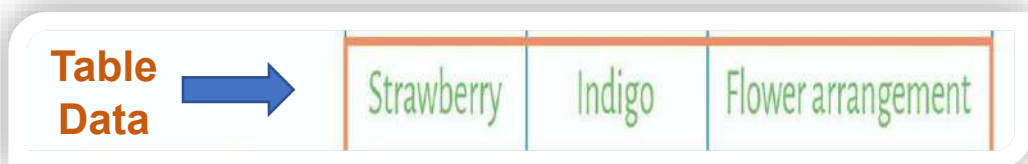

### 1) Step 1-Adding Heading Data

#### Syntax

```
<body>  
<table>  
  <tr>  
    <th> Fruits </th>  
    <th> Colors </th>  
    <th> Hobbies</th>  
  </tr>  
</table>  
</body>
```

### 2) Step 2-Adding Table Data

#### Syntax

```
<tr>  
  <td> Strawberry </td>  
  <td> Indigo </td>  
  <td> Flower</td>  
</tr>
```

## Adding Borders to Tables:

### Syntax

```
<head>
<style>
table, th, td {border: size type
color}
</style>
</head>
```

### Output

Fruits	Colors	Hobbies
Strawberry	Indigo	Flower arrangement

To Change the appearance, we can use

### 1)Border collapse attribute

### Syntax

```
<head>
<style>
table, th, td { border: size
type color ; border-
collapse:collapse }
</style>
```

### Output

Fruits	Colors	Hobbies
Strawberry	Indigo	Flower arrangement

## 2)Padding attribute

### Syntax

```
<head>
```

```
<style>
```

```
table, th, td { border: size type  
color ; border-collapse:collapse }
```

```
th , td { padding: 20px}
```

```
</style>
```

```
</head>
```

### Output

Fruits	Colors	Hobbies
Strawberry	Indigo	Flower arrangement
